Perfume Bottles

# MANUFACTURING

---

## *Expertise*

Years of experience and expertise in manufacturing perfume bottles, allowing GPB to provide top-notch contract manufacturing services.

---

## *Process*

Our manufacturing facilities are equipped with advanced machinery and technology, enabling us to produce high-quality perfume bottles efficiently and consistently.

---

## *Assurance*

We prioritize quality at every step of the manufacturing process. Our team adheres to strict quality control measures to ensure that the final product meets your expectations and industry standards.

---

## *Compliance*

We stay up-to-date with industry regulations and compliance standards to ensure that the manufacturing process meets all necessary legal and safety requirements.

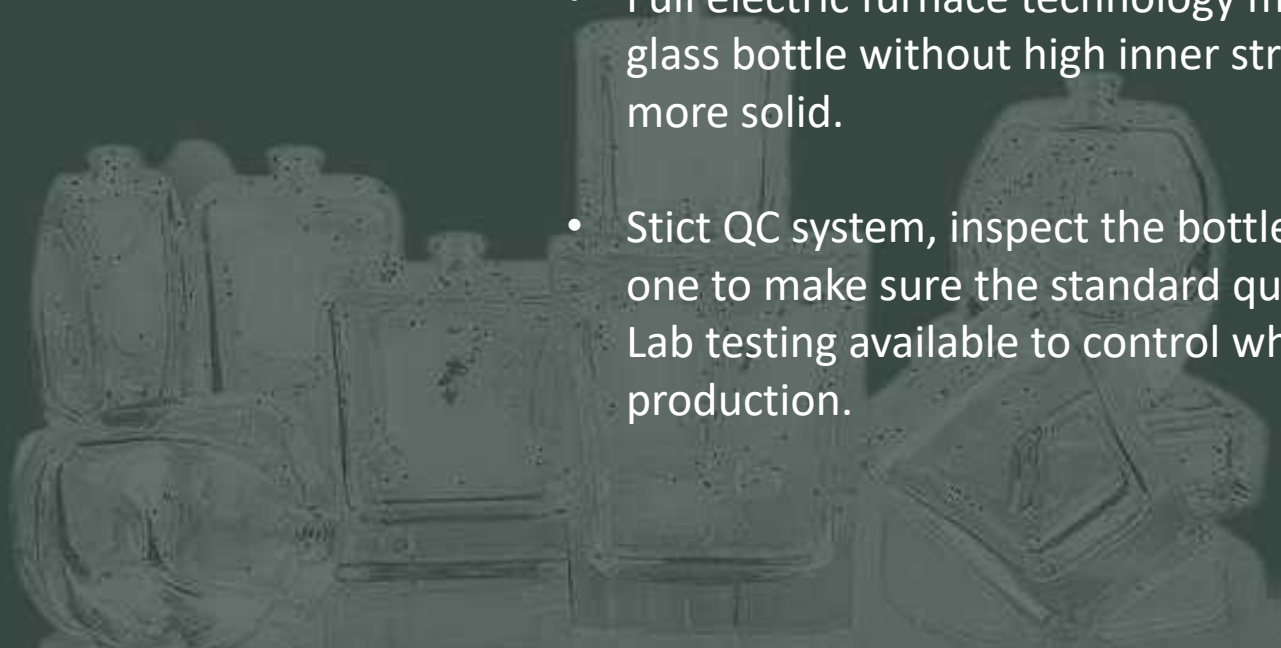

A woman with dark hair and a black top is holding a small, clear glass perfume bottle. The background is a soft, warm brown color.

## GLASS BOTTLES

---

The glass perfume bottle is made of high-white glass with full electrical furnace smelting and steel mold forming process. More transparency, more stable chemical performance.

- Crimp type glass bottle used for packing body perfume with fine mist perfume sprayer sealed with collar to match up 17.2mm inner diameter caps, like wood cap, zamac cap, plastic cap etc.
  - High-white soda-lime glass material has the property to avoid crystal precipitation inside, protect the perfume content for long working life, food grade.
  - Full electric furnace technology makes the glass bottle without high inner stress, more solid.
  - Strict QC system, inspect the bottle one by one to make sure the standard quality. Lab testing available to control whole production.
- 
- A collection of various glass perfume bottles in different shapes and sizes, including round, rectangular, and crimped types, arranged on a surface. The image is faded and serves as a background for the text.
